PREMIER MARTIAL ARTS "NOT JUST ANOTHER KIDS SPORT"

Premier Martial Arts is not just another after-school activity. Basketball, soccer and baseball are all great activities for children, but Premier Martial Arts is personal development through a physical discipline. Our exciting, yet disciplined, classes focus a child's attention, thus improving his or her confidence is the first step in the empowerment of an individual's physical and mental abilities.

Once we begin to develop a student's self confidence we are then able to instill the values of respect, courtesy, honesty, perseverance and integrity that are the foundation of martial arts dating back thousands of years.

Furthermore, your child will develop perseverance, which is a non-quitting spirit to overcome life's obstacles. Instilling a non-quitting spirit helps a child overcome challenges to succeed in the face of adversity and to be a goal setter and a goal getter.

These combined physical and character foundations that Premier Martial Arts develop helps children excel in their academic school studies, sports and social endeavors. It ensures that they will have the confidence in themselves and the character to make the right decisions when confronted with negative peer pressure. They will be leaders not followers.

FIT MIND AND FIT BODY

Fast food, video games, and too much TV, combined with a decrease in exercise, have put today's children in an obesity epidemic! Currently 1 in every 3 children are considered overweight by the American Obesity Association and that figure is expected to grow to 1 out of every 2 children within the next few years.

At Premier Martial Arts we teach children to Fight to be Fit! We develop healthy children with healthy minds so they have the energy and fitness to be leaders and succeed at life's challenges.

NO ONE SITS ON THE BENCH AT PREMIER MARTIAL ARTS

Martial Arts is not a team sport, the only person that you are competing with is "Yourself". Students come to us from age four to sixty four. Some students are in shape, while others are overweight. Some come for self defense, fitness and others for fun. Each person is treated equally, and is trained to the best of their own ability and potential. A student is never compared to anyone else. At Premier Martial Arts our instructors are there to guide, instruct, and motivate you to be the best that you can be.

WHAT ARE YOU WAITING FOR PARENTS? GETTING YOUR CHILD STARTED IS EASY!

Physical and Mental Empowerment for your child is only one decision away! They don't have to be in shape and there is no prior experience necessary. For your child to experience the excitement and challenge of Premier Martial Arts, we invite you to come in to begin your child's, Introductory Martial Arts Course!

You will have the opportunity to speak with the instructors and meet our friendly and professional staff. Through this introductory course, you and your child will get a first hand understanding of the excitement, energy, empowerment, and life changing benefits of Premier Martial Arts!

KRAV MAGA "PRACTICAL ADULT SELF DEFENSE"

Krav Maga which translates to "contact combat" is a no nonsense, practical approach to self defense. It is the official hand to hand combat system of the Israeli Defense Forces and has been embraced by military and law enforcement throughout the world.
